A call was issued last Tuesday for a meeting of "prominent Democrats" at Hendricks Association Hall at 4 p. m., Wednesday, Oct. 29, for the joint, but incongruous purposes of denying the existence of the Noonan-Pohl-man combination and of denouncing the POST-DISPATCH for exposing the scheme.

SEVENTEEN OF "THE PROMINENT DEMOCRATS OF ST. LOUIS" attended. This was the invitation:

The real object of the meeting leaked out, that it mothers and whe did not that it ment to be stuffed with that kind of stuff did known. want to be stuffed with that kind of stuff did not attend.

Even the seventeen didn't understand who sent out the alarm to the "Democrats of St.

Louis." This will explain it to them for the first time. The expose in the Post-Disparch lass Sunday of the Noeman-Pohlman scheme caused a greater sensation among practical Democratic politicians than any incident of the campaign. It has aroused independent of the campaign. It has aroused independent of the campaign.

robber to the good padre, who pleaded poverty in "Gil Blas," "That don't gr down with me."

THE PLAN MISCARRIED.

A formal purty denial of the existence of the "combine" was decided en and the call was issued. Mark Shipley, who has just taken a pelitical office at the Court-house temporarily, and who is regarded as one of the probable Noonau appointees in the spring, if the citizens' movement, now forming, fails to elect the Councilmen against the Noenan-Pollman ticket, was to have been the chief witness to testify to the fact that the Sheriff's office-City Hall alliance never existed. Bob Goode was to have further than to be convented to the corresponding of wanted, to back up a denial.

"But the Democrate nover came."

Chairman C. C. Maffitt of the State Democratic Committee did not attend to hear evidence that there was no Noonan-Pehlinan "combine." He had all the evidence he required on the subject. He had discussed that "combine' time and again before it was published in the Post-Disparch. He did not attend to be convinced. "None of the silk stocking Democrats of the Seventeenth, Twentisth, Twenty-second or Twenty-eighth Ward attended. The half-way independent politiqlans and workers did not want to be caught in a gathering assembled for such a ridiculous purpose Jack Stansbury, the old Work-house bookkeeper was there.

Pat Mack, the canary from the Fifteenth Ward, was there, but was drawing pay on Assessor Tempie's pay-roll for his wasted time.

Assessor Tempte a pay-tott ward, who is time.

Bob Fox of the Twenty-fifth Ward, who is working hand in glove with Jim Carlisle, and whose supremacy in his own ward is threatened, was there.

Bob Campbell, Joe Murphy of the Thirtsenth, Phil Rehan and Clarence Hoblicalle were there because they did not know what the purpose of the meeting was.

Bob McDonaid, a friend of the Muyor's, was there. Five others, Ed Butler and Fielding Manufald wars there.

laughable, but something had to be done. The reporters were on hand and they would chronicle a complete fixite. This was the way hit en te do it. The chair could be authorized to appaint a committee to draft for a subsequent meeting. But a count of noses showed that the programme could not go through smoothly, so nothing was done except to instruct the committee to draw up a Democratic exhortation.

A reporter on a morning Democratic paper, anxious to anticipate his work, applied to one of the arrangers and was let into the scheme. He went away, and when he returned the dishearened dozen said a half had dispersed, and taking for granted that the hedging pian outlined to him had been carried out in full he, too, departed, and this morning horrified his conducting by publishing the following, which gave away the whole scheme:

# LATE FOREIGN NEWS.

OTTAWA, Ontario, Oct. 30.-There is a rumor in circulation to day that Mrs. Birchall has arrived in town for the purpose of pleading her husband's cause with the Minister of Justice, but it cannot be confirmed. It is now said that the publication of the letter signed "Colone!" is a part of a plan to farnish grounds for an application for a reprieve. If such an application is to be made it should be made to a trial Judge sixting at Toronto and net to the Minister of Junties. Justice. Some importance is attached to the petition which Sir Charles Tupper has notified the Department of Justice is now on its way here from England. With those, however, who have observed fir John Thompson's conduct in capital cases it is a foregone conclusion that Birchall's sentence will be carried out and not commuted. He is always extremely reluctant to interfere with sentences of the courts of justice. BIRCHALL UNCONCERNED.

WOODSTOCK, Ontarie, Oct. 30.—The near approach of the fated lith of November does not seem to have much outward effect on Birchail. He professes to feel less concern than many of the sentimental To-day the objects of the meeting are entirely different from what they were at 3 o'cleck yesterday afternoon. It was proposed to get fifty prominent Democrats together under the pretext of the above invited the Mayor by a denunciation of the Post-Disparties, and then to pass a vote of confidence in the Mayor by a denunciation of the Post-Disparties, and then to pass a vote of confidence in the Mayor by a denunciation of the Post-Disparties, and then to pass a vote of confidence in the Mayor by a denunciation of the Post-Disparties, and the passes of the City Hall-Sheriff's effice political combine.

The real object of the meeting leaked notwithstanding the haste. at Ottawa. How he got it out of the jull is not

greater sensation among practical Democratic politicians than any incident of the campaign. It has aroused independent veters. At the City Hall it caused a stir and to-day nine men out of ten in the municipal barn would "shake out" a copy of the paper if taken by the heels.

Something had to be done. Beb Goode and Mark A. Shipley want to the City Hall and had a two hours' conference with Mayor Noenan. From this they came away and the first visit of counteraction was paid to Mr. J. B. McCullagk at the Southern Hotel. He was given an assurance from the City Hall that the Post-Dispatch expose of the combine was without a shadow of foundation. Mayor Noenan had given Goode and Shipley the assurance that he was tor the whole Democratic ticket from top to bettom and not helping out Filley's lieutenant, His Honor was even taking a lively interest in the contests for the constability places is the hope of bring out the full Democratic vote. Mr. McCullagh replied in the words of the robber to the good padre, who pleaded poverty in "Gil Blas," "That don't gr down with me."

## AMONG THE BROKERS

The Poor Girl Took Carbelic Acid to End Her Physical and Mental Sufferings— In Very Poor Health and Was Tired of Living—Arrival of Her Uncle From Cia-

The Coroner's inquest on the body of Miss Cora Glidden Sickles, the young lady sten-egrapher who committed suicide yesterday noon in the Bank of Commerce Building, was held to-day at the Four Courts by Deputy Meis, no jury being called. The witnesses were sworn at the Morgue in the presence of the corpse and their testimony taken in the Coroner's office. The face of the deceased looked careworn and despondent and indilooked careworn and despondent and indi-cated a woman of 30 years old rather than one

of only 22 years. THE DEAD GIRL'S UNCLE. The first witness was Frank M. Glidden, the dead girl's uncle. He testified to these facts and continued as follows: "Deceased was born in Pertamouth, O., about twenty-two years ago. I know nothing about her death. I live in Cincinnati and received a telegram on to take charge of her remains. Her health has been poor for a year or more. She for-

ment out of \$2,642. Mrs. Sadler does not seem to take charge of her remains. Her health has been poor for a year or more. She formerly weighed from 32 to 140 pounds and afterwards fell almost to 160 pounds, She was despondent at times, but so far as I know mever threatened to take her life. I do not know the character of her slokness. I will pury her remains in Wesleyan Cemetery, this city."

MRE REPLOYEE'S TENTIMONT.

Mr. H. P. Farrington, after giving his hame, testified: "I live at Kirkwood and an agent for Bunchmann & Cowen, lumber dealers, whose St. Louis office is in room 600, Bank of Commerce Building, this city. I have known har since August, 1889, when he entered my umploy as typswriter and stenographer. Testerday mersing, about 9:15, she asked for permission to ge out about half an hour, and said: "Well, I will want to go out a soon as the bill of the second hards and the policeman told me that the girl had committed stilles, we shall be succeed a second hards and the policeman told me that the girl had committed stilles, we shall be succeed a second health and had hen for about a second as the bedy had been taken to the Disponsary; that is all know."

'On Monday evening I kept har later than any later than the had not seen when her had a regular physician. "TER MIND AFFECTED."

'On Monday evening I kept har later than any later than the had not a second her where she lived and he had hen for a bout a set of the suicide accept that she was in very bad health and had been for about a year. "She complained a great deal of her head heavy, She laid her head dewn on the table and I saked her where she lived and she answered that she wanted the set of the suicide accept that and head hen for about a year. "She complained a great deal of her head heavily and appeared to be dull sad forway. She laid her head dewn on the table and I saked her where she lived and she answered that she wanted the set of the same of th

her head-down on the table and lasked ber what was the matter and she answered that she wanted to so to sleep.

"I said: 'You had better go home.'

"She answered, 'I will soon.' I asked her where she lived and she answered, 'I don't know where,' I said: 'You don't know where you live?' and she replied again: 'No, I don't.' She had told me befere that day that the doctor had given her morphine and that it affected her head, and I now concluded that her duliness then was caused by morphine. I never knew her to take morphine in the office, or except as prescribed by the physician, and I teld her to be careful always and not take any more morphine than was prescribed for. The next morning she teld me that her memory falled her the evening before, and that she couldn't remember where she lived; I then told her to write down her address and put it in my desk, so that I could find her residence.

"In searching about her desk yesterday afternoon I found a small bottle labeled carboit acid—poisen.' I found the bottle, which was empty, between her desk and the wall, out of sight. She seemed very despondent of late; she never directly said that she was tired of living, but I inferred as much from ill-health, and didn't care whether she lived longer or not. I never noticed that she was flighty in her conversation

living, but I inferred as much from her actions and her conversation at times; I think she conversation at times; I think she was worn out from ill-health, and didn't care whether she lived longer or not. I never noticed that she was flighty in her conversation except Monday night. She was naturally a bright girl, and when feeling well she did her work well, but when despondent she was apt to be careless. She told me that she couldn't sleep nights and that she had no appeate. Sometimes when I was dictating to her she was careless, and I would say: You're not paying attention,' and she would answer; 'If you knew hew hadly I feel you wouldn't say that.' I think if she had had a home and had been taken care of that this thing wouldn't have happened.'

Dr. Watter Coles, the physician first called after the discovery of the young woman on the floor of Mr. Farrington's room, was the mark witness, but he knew nothing beyond what he stated in yesterday's POST-DISPATCH, namely, that he found the girl in an insensible condition and that he was unable to revive her or to assertain the character of the poison she fook, the bettle that had contained for any

ble condition and that he was mable to revive her or to ascertain the character of the poison she took, the bettle that had contained car-bolic acid having been found later in the after-neon after the girl's removal to the City Hospitai. He found in the room where the girl lay a sneet of office paper on which were written these words, "I could not help it. Please forgive and think the best yeu can." She had first written "couldn't" and then written in the letter "o" and made the words "could not."

can." She had first written "couldn't" and then written in the letter "o" and made the words "could not."

No testimony was developed to show that the jrit was infatuated withsher cousin. Elizar Edwards, and that she killed herself because he and his wife returned Tuesday night to Cinoinnati, as published in a morning paper. Neither her uncle, with whom she corresponded regularly, nor her employer knew anything of this infatuation, and neither of the gentlemen had heard of it until they read of it this morning. The only other witnesses examined were Officers Boyle and Labor, who testified to finding the deceased in Mr. Farrington's room and to removing her to the City Hospital.

The verdict was: Died at the City Hospital, Oct. 29, at 1:45 p. m., of carbolic acid poison, taken with suicidal intent.

In conversation with a Post-Disparch reporter, Mr. Glidden, her uncle, said he had brought up the girl, but not at Cincinnati, as reported in the morning papers. Both the girl and her mother, his sister, lived with him and his family en their farm, ten miles from Portsmouth, O., from the death of the girl's father, when she was only a bably, until she was 16, when she went to Cincinnati and entered a stenographic school. While attending this school and until she removed to St. Louis, she lived with another uncle, named Glidden, an attorney in Cincinnati. Her mother died before the girl left Portsmouth. "Cora' had poor health," said Mr. Glidden, "and I think her death was due to that fact. If she had any special attachment for Elmer Edwards, her cousin, I never new of it and don't put much faith in the larty. She had beaus, as mest young girls new, but I don't think she ever lost her heart on my of them. She corresponded regularly sith my family and we thought a great deal of her."

Mr. Glidden will have the remains buried in fact.

Glidden will have the remains buried in eyan Cemetery this atternoon and ex-to return to Cincinnati, where he is now

### CAPT. SMITH SLIGHTED.

MINNESOTA MAN GETS THE TREASURY APPOINTMENT CLERKSHIP.

. Howe, Married to Miss Butterworth Yesterday, Died Te-Day-Report of Gen. Rager, Commanding the Department of Dakota—The President to Go Home to Vote - Important Bulings on Customs

WASHINGTON, D. C., Oct. 80 .- The vacancy n the office of the Appointment Clerk of the Treasury, made vacant by the resignation of T. E. Byrnes of Minnesota, and which Capt. Hiram Smith of Cameron, Mo., made an effort to seepre, has been disposed of. It goes to Mr. J. K. Moore of the St. Peters (Minn.)

Tribune. This is the last place that Uapt.
Smith aspired to, and with it his hopes for office have vanished.

MISS GANTT. Miss Gantt, who was so seriously injured in the runsway accident, in which her mother, Mrs. Lieut. Gantt, was killed, is still in a serious condition, and while ther are hopes for recover, it is a matter of doubt.
Dr. Cuthbert believes that Miss Gantt will pull through. The young lady is well known in St. Louis, and is a niece of the late Judge

POLITICS IN MISSOURI. At this end of the line, from advices re-ceived from Missouri, the election of Messrs. Prosser and Wade, Republican candidates for Congress, is predicted. With these exceptions it is believed that the State will return Democratic delegation to Congress. The Demogratic Congressional headquarters predict a clean sweep.

OBITUARY. Mr. Rosler I. Varnell, the agent for the Armour Beef Co. here, died last night. There are several clerks from the Ninth and other Congressional districts employed in the Census Bureau. In jact, that office became the dumping ground for manyan applicant for official position here. The civil service rules official position here. The civil service rules precluding appointments in the departments except by examination, the census office became the harbor for a great many official applicants frem Missouri. Congressman Wadescured most of them, Congressman Kinsey five or six places, and the Democrats got in their work, teo. In another week some of these will be discharged, and they are already looking around for means of obtaining an extension of employment.

Gen. Ruger's Report. WASHINGTON, D. C., Oct, 30 .- Brig. Gen. ment of Dakota, has submitted to the War Department his annual report upon the condition of military affairs in that department. He says that no events have occurred calling for actual campaign eperations, although the services on several occasions have been required of quits strong detachments from a number of posts to support the authorities of Indian agents on the reservations, to confine thereto Indians not controllable by their agents, or protect and assure safety to settlers in the vicinity of the Sioux Reservation who had become apprehensive of trouble. Also it became necessary to prevent intrusion on the ceded lands of the Sioux Reservation. These duties were well performed by the troops, whose presence and discreets action undoubtedly prevented disorderly occurrences, if not worse. Gen. Ruger says that there is no reason in general to apprehend moiestation of settlers upon the ceded lands, even by the most disaffected Indians if the latter are kept under military observation for a time at a few points where friction will mest likely result from settlements. Respecting the threatened trouble at Flathead Lake, Mont., Gen. Ruger says it appears upon inquiry that there is little probability of serious trouble and that enforcement estably the civil officers of the statute prohibiting the sale of liquor to Indians and half breeds is the principal necessity of the case. A detailed history of the gmovement of trouble not that enforcement estable field duties for a quite important nature have been well done. There has been at some posts a decided decrease in the percent of desertions, but the decrease is slight for the department as a whole, owing to the comparatively large number at a few posts. Gen. Ruger says it is fair to expect imprevenent in future, owing in part to opportunities which recent legislation and action therefore the says it is fair to expect imprevenent in future, owing in part to opportunities which recent legislation and action therefore the says it is fair to expect imprevenent in future, owing in the percent of desertions, but the dition of military affairs in that department.

Information for Surveyor Churchill. WASHINGTON, D. C., Oct. 30 .- The Treasury Department has received a letter from the surveyor of Customs at St. Louis, reporting on a communication of Messrs. Wyman & Co., in which they represent that their business is more or less retarded by the demands of incompetent parties requiring and obtaining the services of Government employes in the preparation of their entry papers at the Custom-bouse. The Surveyor states that persons who seldom import are ignorant of the preper manner in which to make entry, obtain the services of entry cierks in assisting them, and that the practice has been found to lead to the consumption of much valuable time, and to prevent prempt attention to those who have their entries ready to file. The department, in reply to the surveyor, says that there is no objection to affording immingrants and others who have not regularly engaged in the importing business all proper information and facilities concerning their entries but all antries of on a communication of Messrs. SCOTTDALE, Pa., Oct. 30.-The workmen o all the plants operated by the H. C. Frick Coke Co. vesterday served notice on General Manager Lynch that unless Andy Verestic, th itscharged local committeeman of the Tip ment there will be a strike of 10,000 men on election day. Large meetings were held last ressed by Messrs. Kerfoot and Parker. The United Mine Workers Issued a secret circular restarday to all employes in the region, urging immediate action on the present difficulty. The circular also orders the Frick employes to be in readiness to strike at a moment's notice. The national officers have indorsed the actions of the district officers. President John B. Rose of the United Miners of America addressed a letter to General Manager Lynch, in which he says:

"Verestic has been in the employ of your company for more than five years. He has been a quiet and unobjectionable workman, and the charge now against him—that of overstepping his duty as a committeeman—gives color to the charge that the purpose of the company was to intimidate. I am, therefore, compelled to say that should the usual six days' notice be served from all the works operated by the H. C. MRS. LIVINGSTON'S TALE OF THE FINNEY HUENECKE ESCAPADE.

Her Depositions Taken Yesterday in the Divorce Suit Begun by Mrs. Dr. Finney-She Tells a Remarkable Story, but Re fuses to Answer Leading Onestions.

The depositions of Mrs. Livingston in the divorce case of Mrs. Dr. Gordon Finney were aken yesterday in Lawyer John W. Drabelle's office. Mrs. Finney is seeking lyorce from her husband. Dr. Gordon Fin ney, who some time ago created quite a sen sation in this city by disappearing from the the expiration of six days. The notice will city in company with Mr. Hugh T. Henneck and afterward appearing with a story of imystery and hidden treasures. The two ment town suddenly one day and night at Standard and Davidson and were ad- grand hunt was instituted, but without find Mrs. Finney, the doctor's wife. one else. Finally he returned for a day of two and again disappeared as mysteriously as before, hinting while here that he was o the eve of discovering a very valuable treasure. He avoided his wife as much a ignorance concerning his movements. Event. it. Whether she was in possession of the grea but that the woman was in it wa established beyond a doubt. The woman became the central figure in the affair, but she, like the rest, told a story of 'business' in a most mysterious and an noying manner. No definite information as

"business" in a most mysterious and annoying manner. No definite infermation as to the nature of the business could be seigured from any of the parties. Mrs. Finney a the course of time arrived at the conclusion that the next thing for her to do was to seek a divores from her husband.

The depositions taken yesterday before Commissioner John M. Drabelle were a consequence of this determination. The papers were filed with the clerk of the count to-day. Mrs. Livingston answered some of the questions put to her and some she did not answer. She told her story of the affair in substance as follows: About two weeks before the first disappearance she was introduced to Dr. Finney by Mr. Heunecke and then accompanied them on the trip to a little town up the State where they stayed one aight and the next day took beats and went down the river a plece on this same "business." They camped for four days in a tent. There was only one room in the tent, At night the mes alsept haif the time and then accod guard while the ladies took possession of the tent, After four days in camp they moved dewn the river to another point and from there was only one room in the tent. At night the mes alsept haif the time and then stood guard while the ladies took possession of the tent, After four days in camp they moved dewn the river to another point and from there came back to St. Louis, stopping at one of the hotels turing the day.

Mrs. Livingston reviewed the doings of Dr. Finney and their business meeting, saying that she saw him nearly every day on business. The questions of that nature she refused to answer.

\*\*REFUSED TO ANSWER.\*\*

After refusing a series of them put her by the Commissioner, Mr. McDonald asked her one concerning her occupancy of a cession room on Olive street in company with Dr. Finney. This she refused to answer on the ground that she did not want to criminate herself.

The London Market Weak, but Stocks is New York Gathering Strength-An Upward Movement All Along the Line-Stocks Close Strong and in Good Demand

RISE.

-A Better Prospect. New York, Oct. 30,-The London market this morning was materially lower than the figures of last evening and this market opened in close sympathy with it, everything being from 1/2 to 1/2 per cent lower than last night while Louisville & Nashville was off & per cent. The decline went no farther, however, and the early dealings developed consider able strength, Lackawanna rising % and the rest of the list smaller frac-tions. There was the usual duliness in the general list, while St. Paul, Union Pacific, Louisville & Nashville, Burlington & Quincy and Sugar Refineries were conspicuously active. The upward movement was succeeded by duliness and compar ative stagnation, and although the firm tone was retained, there was scarcely any move bonr. No further feature of any kind was but firm at the best prices, which were fractionally better than the opening figures.

A GENERAL RISE. market after 11 o'clock remained comparapronounced strength in the leading stocks and material advances were scored. Sugar refineries took the lead and rose 1% per cent to 69, while St. Paul advanced 1, Burlington & Quincy 1 and Lackawanna 4, the rest of the list following with smaller fractions. Union Pacific and Louisville & Nashville were quiet and failed to rise as rapidly as the other act

Pacific and Louisville & Nashville were quiet and failed to rise as rapidly as the other active stocks and late in the hour another spuri brought Chicago Gas to the front with a rise of He per cent to 40, while the rest made further slight gains. The market at noon was fairly active and strong at the best prices of the merning.

The Ennk of England rate was left unchanged at 5 per cent to-day and in the open market bankers' rates are offered at 5 to 19 per cent, so that se far as the money market is concerned it is the defrately casy. But London is not a buyer of American, railroad stocks yet to any extent except in just such a spasmodic, scalping way as is being done by local and board-room speculaters in New York. This morning London sold some 5t. Paul and some Missouri Pacific and bought back some of the later, but the whole business had no more significance than the scalping trades from hour to hour by the every-day New York speculators. The fact is that while there have been a great fluidation extending over several menths and many active operators have either been crippled or have become discouraged.

American Strong and Delay a strateging over several menths and many active operators have either been crippled or have become discouraged.

AN ADVANCE IN STOCKS. | bonds, first, because the earnings of Ameriroad system of the United States except for the excessive competition among the granger roads, was in pretty good condition, and next because New York was the only great market where anything dould be sold. Therefore London has been in as crippled a condition as France after the collapse of the Comptoir d'Escomte and the Pamama Canal. But as France has already recuperated it is reasonable to expect that London will do so, even much more speedily.

Its prevince of automically recording the time of the day is but one feature of its adaptation to other and wider uses, such as recording the day of the month and year, which records are very desirable and frequently indispensable in transactions on the Stock Exchange, fire and police signais, the delivery and reception of telegraph and cable messages, the recording of legal decuments, and generally it is a convenient addition to the office equipment. The apparatus in question is simply a stamp, the various conditions of which are incunted as type wheels on the end of a swinging arm. There is an armature with an electro-magnet placed at the other end of the arm, to which these wheels are connected. The electro-magnet is actuated by electric impulses controlled by the clock, which is arranged to close the circuit for a fraction of a second at the beginning of each minute, the result being that the type wheels are cerrespondingly revolved to accord with the ladications of the clock. Two cells of an open carcuit battery supplies the electric energy. This apparatus has been designed in which the type wheels are revolved and the recording as well effected electrically. There is a wide slot which allows the insertion of a large sheet. The instrument is competed with the clock in the same manuer as the one first described. By pressing the button in front of the case the time is stamped, thus energizing the electric magnet, the mevable arm of which it gives the desired impression. This medel has been so modified as to permit the stamping of the time on a continuous paper tape such as is sembloyed in the reception of cable or automatic telegraph messages. As the clock is entirely independent, any number of stamps can receive their time impulses from a single click. This is especially applicable to the issuance and reception of railroad orders where the entire section of a road can be controlled by a single time wire. One of these instruments is in the office of one of the Atlantic cable companies. way into public use. Its prevince of autom ically recording the time of the day is but one otes City, 'daho.

It is about half and half between the owners and it remains with the board to decide whether the street shall be opened or the ordinance to open it be repealed.

The Council and House of Delegates have lapsed into a lethargic condition which is beginning to grow somewhat serious, There are bills and bills waiting for the legislators are bills and bills waiting for the legislators to legislate them, but they den't. There are conduit bills waiting for decisions. There is the garbage ordinance waiting to be repealed and a host of minor matters to be attended to. The House is waiting for the Council and the Council is waiting for the House, and between them nothing is being done. Only one meeting a week is being held in each branch, and at these meetings the only desire of the few members who attend is to get away as soon as possible.

The Grant Menument,

Street Commissioner Murphy to-day gave instructions to have the space around the Grant Monument on Twelfth street kept free of all obstructions. It has been the custom of all obstructions. It has been the custom for these engaged in street and track repairs to place tool boxes, ties and materials against the railing that surrounds the base of the pedestal, thus detracting from the view of the monument proper. At the request of Col. Nelson Cole, who is a member of the Grant Monument Association, Commissioner Murphy, who is Chairman of the Committee as City Lighting, will recommend to the Board of Public Improvements that an arc light or several incandescent lights be so placed as to illuminate the statue at night. In order te do this, and to remove the unsightly wires that now cross the statue from the east to the west side of Twelfth street, Commissioner Murphy has reconsisted the Monad City Relivan Commissioner The Stery Going the Rounds of the Tebacce 182,967

There are many, however, who will admit the exertion at times, of some peculiar influence, swaying our actions. We are led to do things we should not do of our own volition—the wisdem of which we do not appreciate until afterward; then we wonder how we came to do them. We are forced to learn that worldly wisdom is not always that which gnides into the wisset courses.

In this practical age results are what people are looking after. They believe in what they see; the "evidence of things not seeh" is to be weighed in the future. The Lecture of Thomas F. Layder, an Ex-

AMESBURY, Mass., Oct. 30,-A former priest named Thomas F. Layder delivered a lecture here Tuesday night on "Romanism," although repeatedly interrupted, he went through to the end. In the afternoon he spoke privately to ladies, explaining the sins of priests connected with nums in the convents of America. A large number of the finest ladies in the city were present and heartily praised the ex-priest for his talk. The Beman Catholic citizens of the city, however, are indignant, and last evening at 7 when he was to pass from the Mascot House tathe Opera-house thousands of citizens of all nationalities and religions were crowded about the door of the hetel and the sidewalk leading to the Opera-house, a distance of about the door of the hetel and the sidewalk leading to the Opera-house, a distance of about five hundred yards, was one surging mass of excited humanity. The entire police force, under City Marshal Goodwin, were enduty. The day police in citizens' clothing preceded the lecturer and the night force in uniform closely followed him. Cries of "turn-coat," "liar" and other obnoxious names were used as he passed through the main street of the city, but when he arrived in fronts of the Post-office, the mest public place in the city showers of rocks and other missiles were hurled at him. One large stone hit him over the temple, knocking him insensible. It could not be learned who threw the stone. When he had so far recovered as to be able to speak he maked into the very midst of the crowd and offered a reward of \$100 to the person whe would point to him the man who threw the stone or any other missile. He was then taken to the Opera-house, where an extra large crowd of citizens had already gathered, and was greated with round upon round of applause, as covered with blood he mounted the stage and delivered a bitter address against the Roman Catholic Church. The "Get There Club" attended the lecture in a body to offer protection to the lecture. The city is greatly excited over the occurrence and serious trouble, if not bloodshed, is feared. THE ANNAPOLIS ARMOR TEST. Serious Question Affecting the Lives of Crows of Battleships.

NEW YORK, Oct. 30 .- The Times says: serious question has arisen from the recent armor test at Annapolis which affects the very life of the crews of modern battleships. It was found in the test that for a distance of 200 will recommend to the Board of Public Improvements that an are light or several in candescent lights be so placed as to illuminate the status at sight. In order to do this, and to remove the unslightly wires that now are site status from the east to the west side of Tweifth street, Commissioner Murphy has requested the Mound City Railway Co., whose tracks now form a deuble curve close around the monument, to present a plan for straightening the tracks from Locust to Pine street. This has been done, and the board will pass upon the matter to-morrow.

The Mayor Accepted.

The Mayor yesterday received an invitation to attend the celebration at Gaiveston, Tex., to celebrate the victory in the matter of a deep water harbor.

The Mayor wrote a letter of acceptance the chose inviting him and at the same time begged permission to take with him a committee of no less than three and not more than five representative citizens with him. A reply has not yet been received.

FORGIVEN, BUT TOO LATE.

THE ROMANTIC STORY OF MR. AND MRS JAMES PROUD.

chant Refuses the Suiter Selected by Her Father and Marries the Man of Her Choice-Forgiven at Last, but Death

HAZARDSVILLE, Pa., Oct. 30 .- Yesterday's all brought a letter addressed to Mrs. James Preud, wife of James Proud, a prominent merchant of this place. The parents of the couple are still living in England, and as this letter bore a foreign post mark Mr. Proud's surjosity was aroused and he waited to hear from his wife what news it contained. Mrs.
Proud had just recovered from a severe illness, and as she nervously opened the letter and gianced hurriedly over its pages, she then

"Oh, Jim, forgiven at last, but papa is Before the sentence was finished Mrs. Prond threw up her arms and sank to the floor. The horrified husband quickly summoned Dr. Hunt, the family physician, who resides next door. He responded promptly but it was too late, life was extinct. The letter conveyed the news of her father's death. The

shock was too much and caused her death. But few outside the circle of her family and friends were aware of the remance in Mrs. Proud's life, which was told by her husband. Thirteen years ago Mrs. Proud was Miss Etta Boudy, the daughter of James Boudy, a retired London merchant. Her father was an austere man. He idolized his daughter, but he made up his mind she should marry the man of his choice or incur his everlasting displeasure. Theodore Harrington, the son of a settled upon. from Froud, who was of humble but highly
respectable parentage. Harrington complained to her father of the treatment he had
received. The father became furious and
severely reprimanded his daughter. He tried
to exact a promise from her to permit Harringten to renew his attentions, but failing to
accemplish this, as a means of forcing her
into submission, she was locked up in her
room for two weeks. When the father heard
of her clandestine meetings with Proud, he
said he would rather see his daughter dead
than marry Froud. Nothing short of a premise to an ailiance with Harrington would appeace her tather's anger, and this she finally
gave, not with any intention of acquiescing
in her father's wishes, but simply to accomplish her own ends. Next day she was ordered
to be in readiness to meet Harrington.
She managed to elude those who were or
dered to watch her movements and hastened
to see Proud. An hour later they were quietly
married. She returned to her father's house
and informed him she was ne longer at liberty
to meet Sir. Harrington er anyone else, and
told of her marriage to Proud. Her father
drove her from the door. The young couple
came to this country shortly after, and after
settling here Mirs. Proud wrote to her father,
simply saying:

Beyond this not a word ever passed between the two families until yesterday morning, which not only fully accorded ter father's forgiveness in the most affectionate manner but bequeathed to her the sum of £20,000. It was dictated at his death bed a few hours before he expired.

Miss Louisa Chapman Captures a Burgia in Her Father's Store.

NEW/ BRUNSWICK, N. J., Oct. 80 Louisa Chapman is the daughter of Mr. Lewi Chapman of Perth Amboy. She is 19. Mon day night burglars entered her father's jewelry store and Tuesday she was in this city to give the following testimony to Prosecutor Audrain: Herman Whitz and Herbert Leibert had been arrested charged with being the house breakere. Miss Chapman happened to have a revolver in her sleeping room, and hearing the men prowling about down stairs, she arose, dressed herself and picking up the revolver went into the second-story hall just in time to confront Whitz. Presenting the cecked revelver at his head she demanded to know what he wanted there. He gave her some rough answer, and backing down stairs, got into the street. By this time she saw the stere had been broken into. She sprang isto the street after the man and brought him back to the house at the muzzle of her pistol. She made him sit down and guarded him while her father and ethers called the police and secured Leibert. In telling modestly about the affair yesterday Miss Ubapman did not seem to realize she had done anything especially meritorous.

MR. GLADSTONE declares that Englishmen have no reason to complain of the McKinley tariff law because, while it disturbs trade with this country for a time, it gives England freer scope in the other markets of the world. The inevitable effect of it, he says, will be to increase the cost, but coarsen the quality of American goods, and thus cut off American competition outside of America Thus England loses one market, but gains a monopoly in many others, and we are shut out from all markets for our manufactured goods except our own.

THE address which a few alleged promnent Democrats, the mention of whose names would be fatal to their object, are about to circulate, denying the existence of the Noonan-Pohlman spoils combination, should be supplemented by a resolution expressing confidence in the integrity, political purity and patriotism of essrs. Noonan, Filley, Pohlman and BUTTER. Thus consistency would be preserved, and the signers of the address would avoid adding the crime of false pretenses to the guilt of lying.

THE duty of \$3 a pound imposed on every package of unstemmed Havans to-

able for wrappers puts an end to the employment of anybody in this country to stem Havana tobacco imported for use as fillers. To get their packages of fillers in at a duty of 35 cents a pound the importers will have to buy leaf stemmed and sorted in Cuba. Smuggling is the only American industry that will be benefited by this feature of the new tariff.

STANLEY's own book having been published the members of his Emin relief expedition feel free to talk and write of their experience, and some of the testimony presented by them is neither complimentary to him nor corroborative of his statements. Of course much of this disagreement may be laid to personal differences and jealousies, but the evidence is strong that STANLEY was responsible for the fate of BARTTELOT and the rear guard and is guilty of gross injustice, in attributing their misfortunes to their leadership.

THE policy of paying ample salaries to Judges to keep them out of the complications of gainful business while serving on the bench has failed in one conspicuous ease in New York. Judge Brach of the Superior Court found in his salary of \$15,000 a year the means of going into stock gambling far beyond his depth, and now, after vainly imploring stock-brokers not to sue him, he has been sued for a number of stock-gambling debts which he is unable to pay. Not only good policy but justice demands that all public servants shall be well paid, but the efficacy of increasing salaries to hire officials to be honest or Judges to be mindful of the proprieties of their position is at best doubtful.

DOUBLESS POHLMAN and FILLEY could drum up more than a hundred Repullicans ready to express a disbelief in the existence of any ring arrangement between bosses on both sides with reference to the November and spring elections. If Mayor Noonan and Boss Butler cannot find more than a dozen Democrats ready to do as much for them, they should leave their vindication to the election returns. The returns which elected POHLMAN and NOONAN to the offices they now hold presented some features by no means pleasing to the defeated candidates on their respective tickets, and the active work of the City Hall forces in the pending contest has all of it obviously been in mutually responsive touch with the "pulls" of the Sheriff's office, the Collector's office and the Four Courts.

A Great Personal Triumph.

From the Asheville (N. C.) Citizen. A great personal triumph, perhaps one o the greatest of our day, has just now reached its zenith. We refer to the career in New York of Joseph Pulitzer, proprietor of the from St. Louis several years ago and secured than no paper at all except for its Associated Press franchise. The reception of Mr. Pulitzer at the hands of the leading New York been extended by as many famished polar bears. He was derided, carleatures, called every name but his own, was followed inte nduced to declare that the interests of his private life by liars who ustice demand the election of CLAIBORNE published their lies. He was defamed, inulted, libeled and maligned. Here was man with a tremendous burden on his shoulfronted by the problem of getting a profitable foothold where absolutely none was in sight, falled, and all this to do in the face of scores that his efforts were doomed to failure.

crime of coming from the rowdy West. Could any good come out of that Nazareth? Nothing was lacking to make the attempt offensive to gods and men. But the WORLD soen became every day a biting criticism on the methods of the other New York newspapers, because it began to succeed where they curl with the scorn of injured innocence, had supposed failure was certain. In-perhaps they would be convinced that his side of two years Mr. Pulitzer's Western prosperity. While its rivals stood and made faces at the World's procession it moved steadily enward and upward. One stroke of the popular taste, fellowed another so rapidly that the hostiles could only gasp and call lionaire could not have spent money with more apparent recklessness than did Mr. Pulitzer with what his esteemed contempoconcern. He bought the best talent in the market and was so successful a manager of men that he drew from his brilliant staff the battle went. The result is known wherever there are readers of newspapers. Mr. Pull ger has written his name across the face of he history of journalism.

The Toulen Scandal.

Paris, Oct. 80 .- The scandal at Toulen grow ing out of the arrest of M. Fouroux, the Mayor of that city, on the charge of being a party to a conspiracy to procure a criminal operation upon his mistress, Mme. Jonquieres, has oc casioned much comment, owing to the high standing of the persons involved. Mme. Jon quieres, who is a Creole, is the wife of Capt Jonquieres of the French Navy and daughter in-law of Admiral Jonquieres. She is also sister-in-law of Admiral Coulombeaud, com mander of the French Tonquin Squadron. M. Foureux is a retired naval efficer. The mid-wife in the case who, together with Mms. Jonquieres, is also under arrest, is named Taure, and it was at her house that the illegal operation is alleged to have taken place. Mme. Aubertin, the divorced wite of M. Toulon, Solicitor, was the ge-between for Mayor Fouroux and Mme. Jonquieres. The operation was performed on the evening of Capt. Jenqueires' return to Toulon from a long veyage. The intimacy between the Mayor and Mme. Jonquieres ceased two menths ago and the latter came to Paris. From this city she wrote to Mayor Fourous municated the fact in the case to the promade into the matter and the arrests followed.

Salaries for Members of Parliament. LONDON, Oct. 30 .- Mr. Charles Fenwick, the Gladstonian member of Parliament for the Wansbeek Division of Northemberland, has prepared a bill which he will introduce in the House of Commons as early as possible after the reassembling of Parliament, providing for the payment to members of the House of an annual salary of £300. A bill of this kind has been often suggested, but never hitherto looked upon with any great degree of favor by Commences for various reasons, chief among them being the belief of the Squirearchy that the heaser of membership is sufficient com-pensation for the duties performed and the knowledge of the same gentry that the atnehment of a salary to a perliamentary seat would be a Ged send to most of the Irish members and, therefore, tantamount to sup-

Baron Sackville's Mistake.

LONDON, Oct. 80 .- A banquet was given last night by the Mayor of Stratford-on-Avon. Among the guests was Earl de La Warr, High Steward of Stratford-on-Avon and brother of Baron Sackville, whose recent chim upon the nunicipality for rent for the ground upon which stands the Shakespeare memorial Irinking fountain, presented by Mr. G. W. Childs of Philadelphia, was the cause of much infavorable criticism. The Earl made a speech, in the course of which he said that he egretted the action of his brother and that he was sorry it had caused bad feeling in Stratford-on-Aven and in other places. He was sure, he said, that Baron sackville would acknowledge that he had made a mistake in making the demand for rent.

Den't Like Balfour. DUBLIN, Oct. 30 .- United Ireland publishes an rticle to-day in which it discredits the reports that Mr. Balfour while on his tour through the West of Ireland was received in a friendly manner by the people, and quotes the words in praise of Mr. Balfour which the order to give the latter a chance to vindicate their characters by a prompt contradiction. The paper says that if the forbearance of the people from expression of their feeling against Mr. Balfour is to be malignantly mis construed, some of them may be provoked to make things quite plain by giving Mr. Salfour a taste of the detestation with which he is regarded by the Irish people. COAL MINERS' STRIKE.

One Threatened in Central Illinois, but Trouble Anticipated Here, The local coal dealers don't appear to be strike of the coal miners in Central Illinois. "We are having no trouble at all with our niners and don't anticipate any," said Mr. of the Consolidated Coal Co., when questioned about the matter this morning. This com-

pany represents nearly all of the coal companies and individual dealers doing business in St. Leuis and controls nearly ail of the mines in St. Clair, Madison, Bond, Clinton, Washington and Monroe Counties, Illinois. "Our mines," continued Mr. Simpson, "are ail operated with machines, except those in Vermillion County, in Northern Illinois, and we pay our men by the day, and not by the ton or bushel, as was formerly done in these same mines and is still done in the mines from which threats of a strike are reported. We have been paying our men a uniform price for three years, \$2.23 per day to machine runners and \$1.75 per day to loaders, or common laborers. In Vermillion County we pay 90 cents per ton for hand mining. We pay more than h paid in Sangamon and adjoining counties because the Vermillion County coal "is harder to mine. How County coal 'is harder to mine. How did we come to obtain control of those mines? Why, they belonged to the same company that owned the mines at Ellsworth, on the Wabash Road in Madison County, and were brought into the consolidated company when the Ellsworth company came in."

came in."

The price paid in the Springfield district for hand mining is 60 cents per ton, and the miners want 62½ cents, and threaten to strike Nov. I if the increase is not made. Patrick McBryde, senior member of the Executive Committee of the National Mine Workers of the United States, is at Springfield to hear the grievances of the miners. He was waited on last Tuesday by a committee representing the mine operators of Sangamon County, and saked to use his influence to have the agreement maintained which the miners entered into with the operators last May, but he said that he could do nothing in that direction, and that the threatened strike would certainly occur if the demand of the miners for 62½ cents per ton was not compiled with.

OLIVET, S. D., Oct. 30 .- A robbery was as empted at an early hour yesterday morning on the Hutchinson county treasury at this place. Burglars made a hole through the trance. The outer doors of the sale, which of some trouble with the combination lock and the inner doors were opened by blowing the look to pieces with powder. Behind these doors was the money chest, guarded by a time look and consaining ever \$800. The ef-ferts of the burgiars to open it were without avail and they were evidently driven away by the approach of daylight. In a small wooden drawer was \$527 in cash and \$2,800 in warrants, which were taken. The burgiars have not been captured.

PITTSBURG, Pa., Oct. 80.-The commission ppointed by the State Leislature to survey route and report on the practicability of building a ship canal between Lake Erie and Pittaburg has decided to recommend such an enterprise. The State will in turn probably solicit aid from the National Government in constructing such a water-way. The expense is not estimated, but is expected to run up in the millions. The object is to bring ore vessels down through the lakes and into the manufacturing regions of Western Pensaylvania, especially Pittsburg, without breaking bulk.

The Union Pacific Flourishing.

OMAHA, Neb., Oct. 80 .- In regard to the physical condition of the Union Pacific Rail-road and the stories recently put in circulation about it President Adams sais to a reporter: "They are malicious and originated with some of the officials recently discharged from the company's service. I have just been over the main line from Ogden to Omaha and it is in far better condition than I ever saw it before. As to the traffic of the road, the enty mistake the officials have made has been to try to do this year's business with last year's equipments. The Board of Directors, fully appreciating the growth of toniage, made ample prevision for it. One hundred and seventy locomotives are to be added to our power and some \$,600 freight cars, or a new locomotive every day of the year, and half a full train of freight cars for every day of the year. After a careful examination I am satisfied that the only thing that the Union Pacific is now suffering from is a plethors of riches, It is much in the position of a 100-horse-power engine which is worked to move machinery requiring a 150-horse-power. The engine is badly racked in the effort. Whetever rumors may be circulated these are the facts in regard to the Union Pacific and it will inevitably so appear a little later on." tion about it President Adams sale to a re

The Colorado, St. Charles Branch. A meeting of the St. Charles Board of Trade representatives of the Improvement Association and other business men of St. Charles was held in that place yesterday at the Board of Trade headquarters to confer with Supt. Riley of the Colerado road with reference to having a branch line built by that road to the east and of the St. Charles ponteon bridge. Mr. Riley said that it would cost \$35,000 or \$48,000 to build a branch line to the bridge from the nearest point on the Colorado road, and that his company, which was lessing measy, would not construct it. If, however, it was built by the people of St. Charles the Colorado road would operate it, and the profits could be shared. The line could be constructed in ninety days. An endeavor will be made in St. Charles to raise the money to build the line.

Illegal Discrimination DES MOINES, Io., Oct. 30 .- The Suprem Court has affirmed the decision of the Jaspei District Court giving Cook & Wheeler, sto dealers of Newton, judgment against the Chicago, Rock Island & Pacific Railroad for \$2,750. The case is important to stock dealers generally. The Rock Island was in the habit of giving certain favored shippers a secret robate on the freight paid on each car. Co ok & Wheeler proved the existence of this rebate system and the court held that it was an unjust discrimination and that the plaintiffs had been overcharged an amount on each car they shipped equito the rebate given to other parties.

During the past few days a report has Field of the Granite Mountain Mining Oo. was didacy for Congress in the Ninth District on the Prohibition ticket. Some three weeks ago Mr. Field accepted the ists and a few days later the committee in charge of his campaign began circulating bille in all directions throughout the district. The circular asked the voters to support Mr. Field on the ground that he was not the candidate "Filleyism, Butlerism, Bossism and

As the story goes the friends of Seth W. Cobb, the Democratic nemines, took most violent exception to the wording of Field was not associated with "Butlerism." Prosser was the choice or "Filley and his Democratic opponent the representative of Butleriam. There was also.

asked to gracefully step down and out of the race, but he-was not in that humor and peliticly but firmly refused to make such a sacrifice.

A COBB SUFFORTER'S DEMIAL

A friend of Mr. Cobb, when asked if the report that Mr. Field had been dropped on account of his candidacy for Congress and the circular issued in his behalf, replied emphatically that it was not.

"Mr. Field, as I understand it," he said, "concluded to make this race a week or two ago. When he reached that conclusion he was told that his race would hardly be compatible with his duties as secretary of the company. He then resigned. Nother Cobb's nor Presser's friends had anything to do with his recignation so far as I knew."

PRESIDENT RUMSEY TALKS.

When President L. M. Rumsey of the Grantle Mountain Co. was questioned as to the causes that led up to Secretary Field's resignation he manifested a disposition to say bothing on the subject.

"It is claimed that Mr. Field was forced to resign because he persisted is running for Congress, and that Mr. Cobb's friends raised the issue." Mr. Rumsey was informed.

"There is not a scintilla of truth in the statement that Cobb, Prosser or any of their friends took any part in this master. The facts are simply these: There was seme objection to Mr. Field's running for effice while; connected with this commany. I spike to him on the subject and he said he proposed to remain in the race, that he owed this to his fellew men to accept the nomination given him. I asked him to consider the matter carefully and he did se. There was afraid I would ask him to stay. At the meeting of the directory yesterday I explained his reasons for resigning from the effice of the matter force of the there is no politice in the Granits Mountain Mining Co. and that the report that the friends of any candidate forced Mr. Field's letter for publication, but he declined on the ground that it was a private communication.

cation, but he declined on the ground that it was a private communication.

MR. FIELD TALKS DIFFRENTLY.

Mr. Field was seen and said that he was given to understand that he had either te resign the Secretaryship or the Freinbitton nomination for Congress in the Ninth District. "I took the latter here of the dilemma," he said, and couldn't have done etherwise. "Mr. Field also said that it was his candid belief that outside influence was brought to bear on the situation. He added that his campaign could in no way have interfered with his duties as Secretary for the reason that he had employed a gentlemma to attend to all the political work.

Mr. Field has been Secretary of the Granite Mountain Co. ever since its organization, having been previously associated with the Hope Co. He is still a shareholder in the Granite Co.

## O'Matley's Case in Court.

This afternoon an affidavit of Patrick O'Mal ley was presented to Judge Klein in Division No. 1 of the Circuit Court, made in the char acter of elector under sec. 4,778 of the Revise

No. 1 of the Circuit Court, made in the character of elector under sec. 4,778 of the Revised Statutes of Missouri, which was designed to call the Judge's attention to an emission in the list of candidates officially published by Becorder of Veters Williams.

The section referred to provides that whenever it shall appear by affidavit that an error or omission has occurred in the publication of the names and description of candidates mominated for effice, or la the printing of the ballots, the Circuit Court may, upon the application of any elector, by erder require the proper officer to correct such error, or show cause why such error should not be corrected. Mr. O'Mailey alleges, as an elector, that Patrick O'Mailey was nominated by a convention of the Democratic party for Representative in Congress from the Eighth Congressional District of Misseuri, and that this fact was duly certified to the Recorder of Voters in accordance with law; that the list of candidates has been published officially by the Recorder of Voters, and that the name of Fatrick O'Mailey does not appear in the list, its place being eccupied by the name of John J. O'Nelli, who is not the Democratic candidate.

Judge Klein after considering the matter said that as the affidavit did not allege that the Secretary of State had certified the nomination of O'Mailey's atterney could amend the affidavit to include that allegation he would decline to make the erder. The atterney said he could not see amend and the order was refused.

Senator Vest in the City. This morning Senator Geo. G. Vest arrived ator Vest spent the morning at the rooms of building, and was in conference with a num-ber of the local leaders. He said that the campaign in the State was progressing in a most satisfactory manner. He will leave in the morning for Petesi, Me., where he will make a speech is behalf of Seastor Sam Byrnes and the other Democratic candidates.

The Finding of Dynamite and Fuse Stirs Up a Neighborhood. Ex-Alderman John Benner reported to-day to Chief of Police Waish that several sticks of dynamite and a coil of fuse had been found in a shed adjoining his stable on Collinsville avenue. Sergt. Bowler was sent to found in a shed adjoining his stable on Collinsville avenue. Sergt. Bowler was sent to investigate and found three pieces of the dangerous explesive, together with twenty-five teet of fuse, on a sort of shelf in the shed, where it had been allowed to remain by its discoverer. Considerable excitement was caused in the vicinity by the report of the find, but subsided when it became known that the explosive was such as is used in stone quarries and had probably been left there by some intoxicated quarrymou who had visited the neighboring salcons. Chief Walsh had the dynamite buried in the empty lot adjoining the police station.

Diskmann's Strength.

The race for House of Delegates in the Ward to fill Delegate
's unexpired term conto attract considerable Twelfth tinues to attract considerable attention from the voters residing in that ward. Mr. Louis C. Diskmann's popularity makes him the prime favorite tamong small classes of voters and all the indications point to his election by a handsome majority. The unsopularity of Gitchell is so great that he iswarisbly scatters the audiences that he essays to address. Dickmann, the Independent candidate, on the other hand is enthusiastically received in all parts of the ward.

An Important Question Decided. NEWBURGH, N. Y., Oct. 30 .- Judge Barnard at Poughkeepsie, yesterday granted a man-damus directing the Board of Registry at Highland Falls to register the names of Highland Falls to register the amos of seldiers at West Point, residents of the former place, to whom the beard has thus far refused registration. He decided that if these men were qualified voters and claimed Highland Falls as their voting place or residence, they were entitled to be registered. The effect of the decision will be to give registration to eightly enlisted men at West Point. Many of these own property and have families living in the irage, and some of them have been fifteen or twenty years resident there. The majority of them have voted in Highland Falls before the question as to their right not having been raised until new. This decision has been received with anything but pleasure by the citizens generally. As there are fully 500 persons eligible under this ruling, the residents of the village are much disastisfied with the decision and are determined to fight the case further, and if Judge Bartlette declines to interfere when the ease comes before him at Brooklya to day on appeal, then the matter will be taken to the general term, and if nead be to the United States Courts. soldiers at West Point, residents of the former

An Interesting Question. LINCOLN, Neb., Oct. 80 .- F. E. Thomas of Omaha applied to the Supreme Court for an injunction restraining some six hundred recently naturalized citizens of Omaha from attempting to cast their votes at the next election, and the several judges of election of that elty from receiving such votes if offered. The claim made by the relator was that the Personal Rights League, an antiprohibition organization, had said the fees requested for the naturalization of these parties and that therefore this action amounted to bribery. The court refused to take jurisdiction in the case, and the papers were allowed to be withdrawn without filing. It is understood that they will present the question to the court again, but in another form. attempting to east their votes at the next

appearance of the Grip-What Certain

which played such sad havoc last year, has not

There can be little doubt that the "grip," which played such asd have last year, has not only left its effects upon a great many, but seems to be returning in various localities. All physicians report that there is an alarming prevalence of heavy colds, accompanied by all grip symptoms. Many people take cold easier than before; others are troubled with weak eyes, headsaches, etc. These things not only come to those who were laid low by the grip last year, but are also visiting many who escaped. Pains, neuraligis, lassitude, all the symptoms are present.

Every leading physician who treated the grip last season prescribed stimulants. The weakening, depressed state of the body demanded this and there are numerous cases on record where pure whisky asved the lives of men and women who were fast drifting toward the grave. As in all other things, however, the parity of an article determines its value, and to say that ordinary whisky will assist is abourd. It is only pure whisky will easist is abourd. The apple markes is strong on the best grades, which are wanted at yesterday's advance. On the incolum grades the feeling is steady. Grapes, in consequence of the cool weather and only a fair demand, were lower. Potatoes while steady, did not show as active a market as was noted yesterday; brices show no chance. Onlons quiet but steady. Cabbage steady. Celery now in good request, and as the weather is cool and offerings only mederate, (all quotations are obtainable. In the home-grown vegetables tomatoes were higher, as receipts now are falling off materially; other discriptions steady, and selling fairly. In poultry we note a decline in spring chickens, and outside of fat dressing turkeys and choice springs and hens, there was but a slow demand. As was remarked yesterday, the cold weather causes the birds to show up to disadvantage, and thereby restricts their sale materially. In game, the arrivals of everything were large, and though grouse was weak owing to the free receipts and liberal stocks on hand, the market on all the other descriptions was maintained in price. Veals and large arrival, and only fair demand, i utter steady on creameries and firm on dairy. Eggs higher.

BEILPNER MISSING. de Deserts His Wife, Children and Another

MINNEAPOLIS, Minn., Oct. 30.—Leo Hellpser is missing. He left behind him his position as bookkeeper at the Columbia Floyr Mill, a wife, three children and a mistress. Hellpner is a Pole. He came from Warsaw nice years is a Pole. He came from Warsaw sine years ago. His family ranks among the nobies. He left for political reasons and his family remained is Warsaw until a month ago, when he installed them here in a house bought and handsomely furbished by the aid of his wife's \$6,000 dowers, sent to him in advance. After three weeks of happy reunion he auddenly left the city, leaving for his wife a lester full of regrets, self-represents and farewell. There were in it his to faulelde. The day after a letteress to the house revealed the existence of a mistress maintained by the wife's dowery. The mill company has an expert examining his books, but no shortege has yet been found. The disheartened wife will return at once to Poland.

CITY NEWS.

It is worth a special trip to ladles fond of fancy work, to only see the magnificent dis-play of art needlework materials in one of Crawford's Broadway windows. Net only is it a pleasure to the eyes to feast upon the exquisite colors and silken fabrics but she who observes may glean valuable ideas on the perplexing question, "What shall I give for Xmas presents?"-while last, but most important of all, it does not require ar abstruse calculation to evolve the fact that a little money at Crawford's will go a longer distance and have more to show for itself when it gets there, than double the aux started a-traveling in any other house.

The Murderers of Policeman Pryor Sentenced to Life Imprisonment.

CHICAGO, Ill., Oct. 80 .- "My God! You have nurdered my son." It was the despairing ery of a grief-stricken woman, startling the ors in Judge Tuley's crowded courtroom as cierk Jones read the verdict which consigned Wm. Mortell and James McGrath to a living death in the penitentiary at Joliet. The murder of Policeman Adam Fryer was avenged by twelve men, who gave to his murderers life sentences. The prisoner murderers life sentences. The prisoners received their sentence stolcally, hardly moving a muscle, but their sumerous relatives were less successful in concealing their grief and the scene that followed was a painful one. Mrs. Mortell, a bará-featured, elderly woman, sprang up from her seat, shrieking loudly, and then fell unconscious to the floor. Other women, sisters and coustions of the prisoners, added their eries and tears to the confusion. Officer Fryer, for whose death the men were sentenced, was shot at the corner of Clinton and Harrison streets the morning of Aug. 9, 1880, while trying to intercept the defendants, who were evading arrest for disorderly cenduct by the efficer.

and Locust streets yesterday forencen when a reselution was unanimously passed deciding to return the charter of the local body to the parent stem and declars the local branch disbanded. Thus the objection found by the Western Union was removed and the members were told that they were at liberty to declare themselves not members of the Brotherhood. Taking Col. Lora C. Baker at his word the six men who walked out Tuesday because Brotherhood men were discharged, called on the Superlatendent and informed him of their willingness to go to work at once. They were at the keys before nightfall, Several of those who ware discharged called on Col. Baker and asked if there were any vacancies for 'real good men,' and McNeil, Tudor and Irwin were engaged at once and reinstated in the positions they had left or others equally as good. By tomorrow all those who have been discharged and who have walked eut in sympathy will be at work again.

Col. Baker is entitled to the credit of having managed this trouble between his men and his company with the greatest tact. In Chicago the men are not inclined to give in. Col. Lowry, Superintendent of that division, said to a Chicago reporter yesterday:

"We have about one thousand men employed in this city and among them there are only thirty-five men who have been prominently disloyal to the interests of the company. The rest of the men who belong to the organization are mere youths who have become enthusiastic over the Brotherhood, but who really have no reason to think badly of the company. The thirty-five men will be gradually weeded out unless they stop the agitation and throw over the Brotherhood. We have found by experience that an oath-bound man can not be trusted. In 1870, when I had charge of the St. Louis branch, the men struck work because an operator had been dismissed at San Francisco for agitating a strike among the employes of the company. My men then came to me in a body and said they had no grievance, but they were been done to engo to continue of the leaders of an ers

HE list of winning jockeys for the year 1890 is headed by Martin Bergen. While he has won more races than any other jockey he has also ridden in far greater number o of wins to total number of mounts a number

joskeys lead him. Bergen rode in 750 races and won in 173 of them. The next greates number of mounts was Lambley's 574, but he only wos 78 races. Taylor had 442 mounts and 103, and Soden had 431 and won 91. Little Pike Barnes is as usual near the top both in the mounts and wins. He rode in 402 races and won 98. The crack jockeys as a rule did Taylor, already mentioned, lamilton, are exceptions. and Hamilton, are exceptions. The latter rode in 354 races, of which he won 119, a percentage much better than Bergen's. also had a large number of mounts -188-and he won 45 times. Murphy only had 38 mounts, but he won 13 of them. Jimmy McLaughlin had only 30 mounts, but made a remarkably high average by winning on 10 of them—just one-third his races. Old man Hayward only won 8 races out of 75 mounts. Fitzpatrick won 12 out of 71 and W. Denchue

Rest Old Eurus.

It would be wise for Trainer Huggins to refor the balance of the season. The son of Folus and Majestic has certainly earned his winter eats during this year's campaign, and his last three races, two of which were at the Elizabeth track and the other on Saturday at Linden, show that he is out of form. Eurus, after winning the Suburban as a 4-vear old, and different rich stakes in his next year's campaign for Mr. A. J. Cassatt, broke down early last year, and when Mr. Cassatt retired from the turf was given to his trainer, John Huggins, who, by earsful treatment, managed to bring Eurus back on the turf this year. The aged herse has been started during this season in twenty-four races, of which he won seven. His best performance among these races was undoubtedly in the Rahway Handicap at Monmouth Park on Saturday, Aug. 16, when he, with 120 pounds on his back, defeated Major Domo, My Fellow, heliwood, Miss Beile and Ballarat, covering the mile in 1:41.

The hard race in the Matterborn Handicap, a mile heat contest at the fail meeting of the New York Jockey Club, told on Eurus. In that race he had to run three heats in order to win the stakes, the light weighted 5-year-old gelding Benedictine winning the first heat.

NASHVILLE, Tenn., Oct. 80 .- Below is the eault of vesterday's races here: First race, for 2-year-olds, half a milethird. Time, :51.

Third race, five furlence—Long Broock Time; 1:24.
Third race, five furlengs—Long Broock won; Laura Dalton, second; Haramboure, third. Time, 1:01%.
Fourth race, one mile—Argenta wen; Penn P., second; Dellikins, third. Time, 1:44%.
Fifth race, three-quarters of a mile—Nipper won; Sun Dial, second; Malacca, third. Time, 1:18.

## Races at Washington.

WASHINGTON, D. C., Oct. 30 .- The races here yesterday resulted as follows: Benjamin won: Bertha filly, second; Adair,

when the pistol is fired—I mean ruuning two yards the best of the pistol. If a man beat the pistol by two yards, he should be about four yards ahead at the ten-yard mark, yet hieyers claims he was only two yards ahead at this point. There is one thing certain, and that is that Owen is the best man to get away that I have seen for years. He left them all standing at the 220-yard run just as be did in the 100 yards. Geo. Goldis says that it is stand that it is the star of the latter distance was perfectly fair. and scores of other men will say the same. Write and ask Robinses about it. He eught to knew semething, for he was one of the runners. I think the track it down hill, and that, along with its poing all clay, makes it, without douot, a vew fast one. This is simply my idea of the track. It may be perfectly level and I may be mistaken, but I am not much mistaken about the disputed start."

SELF-CULTURE CLUBS.

THE PLANS FOR THE WINTER'S WORK FULLY MADR UP.

Talks to the Workingmen on Astronomy to Begin on the North Side Is-Morrow Evening and on the South Side North Thursday Evening—The Working Girls' Branch—Stationary Engineers' Begins.

The plans for the various efforts this winter of the Working People's Self-Culture Club have new been completely akstebed out. The club is divided into various sections and appears of work. There is eas division on the South Side, 2004; South Stote North Side, 20 unexpected success. Several of the ladies in the city also continued the entertainments during the summer for the working girls Thursday and Friday evenings, which were usually very well attended.

THE MEN'S CLUB. The lecture course on Thursday evening on the South Side, and Friday evening at the North Side for the workingmen begins now and continues until January, and then for the second season from the first of March through to the end of Spring. They are to have in the first place, as usual, some illustrated talks on travels and history, in which as heretofo the professors at the university will be in vited to assist and provide the entertainment Desired, Feb. 14, 1855, says the Beston Globe. He stands 5 fest 8th inches and weighs 140 pounds. Irwin's family took up their residence in South Boston, Mass., when he was at great coid. He commanded his base bail continued to the stands of the stands o Besides this, however, it is the intention to

enough. Elmer smith went into Kansas City with an arm attached to him as dead as John Brush's elassification rule. "Here's a presty go," thought Eimer. "I can't make a front long with this arm. It will be a case of drawing my breath and taking the bog train for Pittaburg." He was in a quandary. He could not get his hand on a level with his shoulder. "My heart was in my shoes and I thought: was all over," said Eimer. "Some firemen in Kansas City told me sot to be discouraged. They brought in a box of salve and gave my arm a good rub. The first game I pitched I was hit in every direction. Then I got another rub and I meed up four boxes of the salve. The next game I went in the batters started in like they intended to drive me te the woeds. In two innings the salve began to work, and I mowed 'em down like ten-pins. I was just as good as I ever was. I had all my old 1887 speed, and I have had is ever since. I have never pitched better Sail than I have this summer. The salve did is all. It is made by an eld man in Sloux City. You can't buy it in a drug store. I told Treadway and Flood of the Deavers, Dad Clark of the Mad ad runs, and it cured them. It never fails. But for the salve I would have been lost in the shuffle. I am now the eld man's agent."

Mrs. Agnes Rebertson Deeply Affected By the Douth of Her Daughter.

New York, Oct. 30. - When Mrs. Agnes Robertson Boucleanit heard vesterday morning of the death of her daughter, Patrice Pitman, she was deeply affected. A cablegram from London to Edwin H. Low brought the ead news and he went in person to see Mrs. Boucleault, at the residence of Chas. Wheatleigh on West Sixteenth street. Mrs. Pitman has on West Sixteenth street. Mrs. Pitman has been nearer to Agnes Robertson than perhaps any of the other children, resulting from Boucleault's marriage. Geo. W. Pitman of this city married Patrice Beucleault when her father was at the height of his fame. Mr. Pitman is a hondsome man without much means. It was supposed by his acquaintances that once married to the daughter of such a money maker as Boucleault, Pitman would be "fixed for life." The marriage, however, was said to be anything but happy. A slight congenital weakness of the hip did not impair Mrs. Pitman's attractiveness. She could not be called a beauty. Her aliment did not affect her amiable disposition. But it had, no doubt, much to do with the fact that she was not wedded to a stage life. Only once after she became Mrs. Pitman did she appear en the beards. It was at one of the Sunday night concerts in the Boston Music Hall, when she give a recitation. Dien Boucleault's sarcestic smiles down in the orchestrs disconcerted her so much that she did not again go on the stage. been nearer to Agnes Robertson than perhaps

COMMISSION FIRM SAID TO HAVE BEEN ROBBED OF \$70,000.

Teroate Not Confirmed Locally—The Romance of a Creole Temptress and Her Victim—A Question of Location.

Telegraphic advices from Toronto, Ontario, this merning contained an account in detail of the capture in that city of an embezzier, who was said to be wanted by a St. Louis commission firm, from when he had stolen a

ploy.

The fugitive arrested in Canada was one Frank Losser, who is stated to have absooned from this city about three mentas age with \$70,000, stolen from a commission firm of "G. D. Latch & Co.," and who, after having been tracked by de-tectives in his flight through sev-eral American cities, was finally traced to Toronto and kept under surveillance until the officers were ready to take him into custody. The story states that Mr. Latch, the senior member of the alleged St. Louis firm, was communicated with as soon as Losser had been "treed" in Canada and arrived in Terento last Menday, when, accompanied by a detective, he went to Lesser's hiding place and the arrest was made. It is said that when confronted by his former employer and the officer of the law, the latest addition to the Canadian-American colony broke down completely, refunded \$45,000 of the stelen meney, made

leading to it, and yesterday morning left, it is

The story told by the fugitive was the familiar one of a trusted and ordinarily honest dierk failing from grace through the temptations atrawn in his path by a beautiful weman for whem he cherished a sinful love. It was said that Losser had grewn up in the firm's employ, entering their service years ago as a jusior clerk and rising in grade through faithful attention to the interests of his employers until he became the confidential man of the house, and atood next to the members of the firm in the management of their business. Steady, careful, correct in habita, a member of the church and of irreproachable private life, tourch and in a stempting of all departments, the banking and financial part of the basiness, with a power of atterney that gave him absolute centrol of the firm's funds. He held this position for several years with rigid integrity and would probably to-day be in the firm's employ had not the linevitable "weman in the case." made her appearance en the scene.

The woman in the case, according to the Canadian story was will equipped to win a young man from the straight and narrow path of integrity and business rectitude. Coming to St. Louis from New Orleans about a year ago, a beautiful brunette Creole of insorrect morals, but great personal charms, the temptress captivated the young clerk at sight, and became his niferress. Leaving his hitherto respectable life at one bound under the spell of the French girl. Losser is said to have piunged into all the extravagance and reck leasees sommon to fast life. Installing his mistress in a luzurious suite of secret apartments, the "confidential clerk" layished money upon her as though he was, a millionarie's son. First the savings of years, the money laid aside from the generous salary paid him by Laton & Menthing Creois.

The end came about three months ago, when realizing that his miliar one of a trusted and ordinarily honest clerk falling from grace through

witching Creois.

The end came about three months age, when realizing that his defaications were too large to escape detection much longer she confidential clerk raised all the money he could on sight drafts drawn against consignments and by checking out the firm's balances in the banks, and with his New Orleans mistress ene night boarded a Chicago trais, with Canada as bis objective haves, and digrace and a ruined firm of trusting employers behind him. The couple were traced, it is said, to Grand Rapids, Mich.; Dunkirk, N. Y.; Pittsburg, Ps.; Celumbus, O., and finally to Torento. They arrived in the latter blace about two weeks ago, and stopped at a Gerrard street boarding-house. It was here that the arress was made, followed by the confession and restitution of \$45,000 in drafts and checks. It is said that 'Latch & Co.' will not prosecute Losser, and that he comes back to help straighten the company's flairs, left is a badiy demors lized shape be

James Bogséman's saw mill at Marion, Kan., was destroyed by a boiler explosion and three persons were scalded.

The Richmend & Manville train was wrecked at Seneca, N. U., yesterday morning, injuring J. M. Jones of New York, J. H. Craft of Rhode Island, Mrs. Geo. C. Howard of New Jersey, Sig Arnold of Philadelphia, Jeseph Henschen ef New York and J. W. Burrel the colered porter.

George W. Crim, a well-to-de farmer, was murdered in a field mear his home, at Russelliville, Ky., Tuesday evening. He was shot from ambush by some unknown person and the authorities are hard at work to ascertain his identity. Crim was recently sued for defamation of character by a man named Shepard and it appears was rather unpopular among his neighbors.

**Boils and Pimples** 

Are nature's efforts to eliminate poison from the blood. This result may be accomplished much more effectually, as well as agreeably, through the proper excretory channels, by the use of Ayer's Sarsaparilla.

"For several years I was troubled with boils and earbuncles. In casting about for a remedy, it occurred to me that Ayer's Sarsaparilla, had been used in my father's family, with excellent success, and I thought that what was good for the father would also be good for the son. Three or four bottles of this medicine entirely cured me, and I have not since—in more than two years—had a boll, pimple, or any other eruptive trouble. I can conscientiously speak in the highest terms of Ayer's Sarsaparilla, and many years' experience in the drug business enables me to speak intelligently."—C. M. Hatfield, Farmland, Ind.
